2/90 MODULAR SIGNAGE SERIES

People come and go. Departments move. Companies expand and consolidate. 2/90 Modular can help calm the anxiety employees and visitors inevitably feel in the face of such transitions. They give people up-to-date information on where to go and what to expect. They also enhance an organization's reputation for managing change effectively. Uniquely flexible and exceptionally crafted from high-quality materials, 2/90 Modular is a lasting solution for an ever-changing work environment.

Using just three basic components, 2/90 Modular offers a near-infinite variety of sizes, finish and configuration options... so you can create a truly tailored look for your organization. When changes occur, you simply replace one component- the copy insert- rather than the entire sign. Whether you use your own laser-printer inserts or obtain replacement inserts from 2/90, making changes is quick, easy and economical.

For flexibility, window inserts have different paper changing options accommodated by choice of removable end caps, notched end caps or magnetic-mounted paper carriers, as shown.
