**Direct Sign Systems is your source for a complete interior signage package including ADA, wayfinding and life safety signage.**

Certain types of signage are required on every project to meet federal, state, and local code. You can rely on Direct Sign Systems project management team to do the ground work to ensure a signage package that meets these requirements and is tailored to your specific style, budget and overall need.

*Don't you have more important things to do than assign a room schedule?*

We can work from your architectural drawings and determine the quantity and sizes of signs needed. We are capable of working with a "Top Down" or "Bottom Up" strategy to meet your needs. This is one of the many benefits Direct Sign System's full consulting service can offer you.

Direct sign Systems can take your job from conception to completion by working directly with the owners, architects, interior designers, and contractors in customizing sign systems. We serve a broad range of customers from schools to hospitals, office parks to park districts. Our 15 years in service has allowed us to develop long lasting and trusting relationships with our clients.

Our design staff is fully capable of creating well-designed signs specifically tailored to your needs and to work in harmony with each other and your facility to ensure a lasting impression.

Our installers are trained to assure you of a job both beautiful and in compliance with code. We handle it, so you don't have to.

A sign system is only as good as it is maintained. Direct Sign Systems will work with you on maintaining the system years after the initial order is completed. We are here to help if you need 1 sign or 1,000 signs.

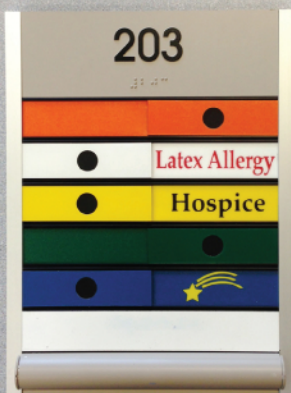

If you have a project you would like assistance preparing sign specifications, our consultants would be happy to work with you on your project. Please call or e-mail to set up a meeting with one of our sign specialists.
