

LIFE SAFETY SIGNAGE

Stair Signs

Area of Refuge

Evacuation Maps

Occupancy Signs

Entrance ID's

Floor Level Signs

Life Safety is an important requirement for all buildings.

Direct Sign Systems can help make sure you fulfill the basic requirements with the necessary stairwell, area of rescue signs and elevator signs.

In addition, there are many other items we can assist you with to add to your Emergency Management Plans. Evacuation maps, interior room number identification tags, exterior window room numbers, and entrance identifications are some of the most common items. We will make sure your maps are easy to read and understand. We can design your room numbering systems so that it flows in a smooth, consecutive manner that will allow safety personnel to locate specific areas quickly and accurately in an emergency.

When it comes to pinpointing exits, stairways, evacuation routes, fire extinguishers and other regulatory locations, your signs need to communicate quickly and clearly. Our 15 years of sign making experience and industry knowledge helps ensure that you meet regulatory requirements throughout your facility.

In an emergency, every second counts. Let Direct Sign Systems assist you in preparing for that emergency.
